Education

University Of Wisconsin—Madison

2024

B.S in Computer Science and Data Science

- #1 Student spotlight in UW-Madison CS newsletter 2021
- GPA = 3.95
- Dean's List

High School

2020

- Graduated as valedictorian.
- President and founder of Computer Science club.
- SAT top performer award

Work Experience

CS Tutor

May 2021 - July 2021

Volunteering

- Taught “Introduction to Programming” to high school students in rural India. Helped the students develop computational thinking.

Software Engineering Training

May 2019 - July 2019

MDC Testing And Certifications.

- Learned about Computer Science and the basics of programming. Developed interest to pursue the field of software engineering.

Math Tutor

January 2019 - March 2020

Volunteering

- Taught calculus to underprivileged high school students and successfully guided them in their math classes.

Technical Skills

- Programming Languages: Java, Python, JavaScript
- Databases: SQL, MySQL
- Front end languages: HTML, CSS, JavaScript
- Operating Systems: Windows, Linux, Unix/Mac

Projects

- Memory-Match Game: A fun gui based game in which the user has to select a card and find its matching card from the tiles which have been hidden after selection.
- Blockchain: Designed my personal blockchain and mined my own “Chirag coin”. Used SHA-256 algorithm for making it secure.
- Weather app: Android based application that uses a free API to fetch data and show the weather of your city.
