Objective

First-year Computer Science student seeking a meaningful summer internship that further assists me in the pursuit of my keen interest in the field.

Education

University Of Wisconsin—Madison

2024

B.S in Computer Science

- First semester GPA = 4.0/4.0
- Dean's List Fall 2020

High School

2020

(India)

- Graduated as valedictorian.
- President and founder of Computer Science club.

Work Experience

Signal Processing And Software Developer

May 2019 - July 2019

MDC Testing And Certifications.

- Learnt various components of computer software and their connection to hardware using multiplexers, decoders, logic gates, etc.
- Programming and unit testing in Java.
- Developed software to incorporate Boolean logic.

Embedded Software Developer

May 2018 - July 2018

MDC Testing And Certifications.

- Learnt basic software development.
- Designed embedded software for electronic components and circuits used for control systems.

Key Attributes

- Programming exposure with first year java.
- Proficient in Object Oriented Programming, data structures, incremental programming, loops, conditions, etc.
- Enthusiastic and a quick learner.

Achievements And Projects

- Hyperloop: Part of the controls and software team of UW Madison's "Badgerloop". The team participates in the annual SpaceX Hyperloop competition conducted in Hawthorne, California.
- UW Madison AI club member
- SAT India Top Performer
